**HAL** is a multi-disciplinary open access archive for the deposit and dissemination of scientific research documents, whether they are published or not. The documents may come from teaching and research institutions in France or abroad, or from public or private research centers.

L'archive ouverte pluridisciplinaire **HAL**, est destinée au dépôt et à la diffusion de documents scientifiques de niveau recherche, publiés ou non, émanant des établissements d'enseignement et de recherche français ou étrangers, des laboratoires publics ou privés.

## **Gender and Health: beware of clichés**

Videos presented at the health training seminar proposed at the initiative of the "Gender and Health Research" working group of the Inserm Ethics Committee, which was supported by the Multi-Organism Thematic Institute (ITMO) Public Health (SP), and the Women-Men Equality unit of the University of Paris Diderot. It took place on November 23, 2017 at the Imagine Institute, Necker-Enfants malades Hospital (Paris).

The 6 one-minute films alert to prejudices in six areas of medicine and research: depression, lifespan, cardiovascular diseases, osteoporosis, pain, brain imaging. The objective of this series of short films is to raise awareness among caregivers and patients to promote a more egalitarian medicine in the service of women's and men's health.

The series of films was co-produced by Inserm, CNRS and the University of Paris Diderot. The project is also supported by the Ministry of Higher Education, Research and Innovation.

Realization : Véronique Kleiner. Credits : Inserm/CNRS/Picta productions. With the support of: Inserm, CNRS, MESRI, Université Paris-Diderot, Université Paris II and the Institut universitaire de France.
